

Welcome to the Community Electronic Health Records (CEHR) system! Your case worker should have given you a printed instruction sheet to help you set up your new user account. You will need the information on that sheet, as well as a **valid email address** to set up your account today.

To begin, please go to www.mycehr.com by either typing the address into the web browser, or clicking on the CEHR icon on the kiosk's home screen. Once you are at the CEHR website, if you have already gone through the process of setting up your CEHR username and password you may use them to login now. If not, you can create your new account by clicking the "Get Started" button on the left side of the screen (please see the example below).
